

Better health is right before your eyes.

It's true, with Blue View VisionSM.

Eye care that's off the charts!

Eye exams. Do you really need them if you're seeing just fine? Absolutely. Here's why: Eye doctors can detect eye diseases like macular degeneration and glaucoma early on, and they're often the first ones to find health problems like high blood pressure, high cholesterol and diabetes. We think that's a pretty good reason to get regular exams. That's why we make getting eye care easy and affordable.

See all the benefits you get with Blue View Vision!

Plenty of choices.

You can get your eye care and eyewear just about anywhere!

- **More doctors and locations.** With over 30,000 eye doctors at more than 25,000 locations, you're sure to find an eye care professional that's close to home or work. And you can even buy eyewear at a location that's different from your eye doctor for an even greater selection.
- **More freedom.** Choose the style that works best for you!

Incredible convenience!

With Blue View Vision, you have access to one of the nation's largest vision networks. You can call or click online at 1-800 CONTACTS, visit a private practice eye doctor, or go in-store to LensCrafters®, Sears OpticalSM, Target Optical®, JCPenney® Optical and most Pearle Vision® locations.

Many of these stores have hours at night and on the weekends, so you can go whenever it's best for you. Just go to anthem.com to find an in-network provider near you.

You get in-network benefits from 1-800 CONTACTS!

After that, you get discounts on the remaining balance: 20% off for eyeglass frames* and 15% for conventional contact lenses (not disposables). And, there's still more:

- Standard/basic eyeglass lenses include a factory scratch coating at no extra cost.
- High-quality progressive lenses and anti-reflective coatings at different price levels so you can control how much you spend.
- UV-blocking Transitions® lenses (\$110 value) and impact-resistant polycarbonate lenses (\$55 value) available for covered dependents under age 19 at no additional cost. [Transitions](#)
- Negotiated savings on popular lens options and treatments.

We're all about your total health. That means keeping all your docs in the loop.

If you have our health and vision plans, your doctors can work together to keep you at your healthy best. Here's how: Let's say that during your regular eye exam, your eye doctor finds that you have a high-risk condition like diabetes or high blood pressure. Your eye doctor shares that information with your primary care doctor. The information is tracked in an electronic health record so you get the important follow-up care and support you need.

We're here when you need us – including nights and weekends!

- If you have a question you can reach us at 866-723-0515, Monday-Saturday, 7:30 a.m. to 11:00 p.m. EST and Sunday, 11:00 a.m. to 8:00 p.m. EST.
