

▶ GENERATION DAYTON: The Place for Dayton's Young Professionals

Generation Dayton is where the Dayton region's young professionals come to connect with their peers and their community. Affectionately known as "GenD", this organization is a diverse group of talented young professionals who live and work in the Dayton region to meet, network, learn, grow and establish themselves as integral components in the future success of the Dayton region.

"Generation Dayton connects me with young professionals in the Dayton region who are motivated, inspiring and dedicated to improving our community. No matter what type of event; social, community, professional, I leave feeling energized and full of the know-how to give back and improve myself in ways that not only help me professionally but also improve the community where I live, work, and play."
