

EMPOWERING DAYTON'S EXECUTIVE WOMEN

The Executive Women's Leadership Council supports women in executive leadership roles by providing peer to peer networking, education, and professional growth opportunities. The council aims to provide a chance for these women to candidly share and discuss business problems, experiences and challenges with a diverse network of female leaders in the Dayton community.

"The DACC Executive Women's Council offers great opportunities for executive women to network and develop relationships that help members address opportunities and challenges as leaders in their organizations."

- Becky Benna
Five Rivers Metroparks
