

Cloud UC Solutions

New Era Technology's Cloud Unified Communications solutions are flexible, scalable, and application driven.

New Era Cloud UC delivers features like HD voice, video conferencing, multichannel contact center, and seamless collaboration tools to get the job done.

New Era Cloud UC provides small to large enterprises the ability to have synchronous (real-time) communication at a single site or across all locations. New Era Cloud UC also provides the ability to have single number reach (SNR) on multiple devices including mobile phones, tablets & desktops.

Key components of our offer include:

- 24/7 monitoring and support
- White glove professional services
- MAC work

With white glove installation, easy onboarding, and comprehensive training, New Era's Cloud Unified Communications solutions are the right choice.

Highlights

Low Cost – Reduce CapEx significantly, eliminate monthly maintenance costs & manufacturer support costs.

Flexibility & Seamlessness – Work from anywhere you have an Internet connection.

Business Continuity – Stay connected during power and internet outages. Your calls will automatically be routed to a preset number.

Setup is a Breeze – We provide a full-service implementation, including training.
