SAY HELLO TO THE SOCA BENEFIT PLAN.

A SOLUTION DESIGNED FOR BUSINESSES JUST LIKE YOURS.

Small businesses can be at a disadvantage when it comes to health benefits. The claims risk pool isn't very big when you have fewer employees, so costs can be higher and your budget less stable.

That's where the **SOCA Benefit Plan** steps in. With a SOCA plan, the risks are lowered because you're joining together with other small businesses like yours. This is called a MEWA — a multiple employer welfare arrangement.

Along with cost savings, being part of a large self-funded pool gives you flexibility and financial protection backed by Anthem's stop loss coverage.

IS MY BUSINESS ELIGIBLE?

The SOCA Benefit Plan is a self-funded MEWA offered by the Southern Ohio Chamber Alliance (SOCA) together with Anthem. The plan is available to all employers with corporate headquarters located in Ohio that have 2 to 50 employees and are members of a qualifying chamber. It's a great alternative to traditional Affordable Care Act (ACA) plans. And unlike other association health plans, you don't need to be from the same industry or trade group.

THE SOCA ADVANTAGE.

The SOCA Benefit Plan is the perfect fit for small businesses like yours. You get:

- Competitive rates.
- The stability of fixed, predictable monthly payments.
- A variety of plans for your business and budget.
- Plan design offerings similar to familiar pre-ACA models.
- Popular specialty plans (vision, life, disability and more).
- Clinical integration with Anthem Whole Health Connection®, providing whole-person care for employees with integrated medical and specialty plans (vision, life, disability and more).
- The added value of Anthem's broad Blue Access PPO network and critical pharmacy benefits.

**FACT: MORE OHIO SMALL BUSINESSES
ARE ENROLLED IN THE SOCA BENEFIT
PLAN THAN IN ANTHEM'S ACA PLANS.**

FLEXIBILITY TO MEET THE UNIQUE NEEDS OF YOUR BUSINESS

While the SOCA Benefit Plan delivers access to a number of widely used services, it also allows freedom:

- **Participating employers** can make their own plan choices.
- **SOCA Benefit Plan options** aren't subject to the same mandates as plans offered under the ACA — requirements that can make ACA plans less affordable for small businesses.
- **Like ACA plans**, coverage is offered to any and all eligible applicants regardless of health status.

MORE CHOICE MAKES SOCA THE BEST CHOICE

Anthem's breadth of experience and understanding of what matters to small businesses can work to your benefit. We offer a robust and expanded selection of health and wellness options. Plus, you'll have specialty products exclusively for SOCA Benefit Plan participants including vision, life, disability and more.

EVEN ADMINISTRATION IS SIMPLE AND STREAMLINED

You get all the support you need, including assistance with many of the complex compliance requirements that come with an administrative services only (ASO) arrangement — so you can focus on your business.

And, Anthem offers shorter timelines for getting employees started in the plan, and a fast and easy renewal process.

SUPPORTING YOUR EMPLOYEES' TOTAL WELL-BEING.

With health and wellness programs designed for your employees' whole health, you'll find innovative services, added conveniences and personalized help.

SmartShopper®

Prices for the same quality medical service can differ by thousands of dollars within the same neighborhood or health plan network. The SmartShopper program can guide employees to lower-cost options for common services such as ultrasounds and mammograms. This could minimize your employees' out-of-pocket costs and earn them cash rewards from \$25 to \$500 after claims are processed,¹ benefiting them and you.

LiveHealth Online

Your employees get the convenience of video visits 24/7 with board-certified doctors from their computer or mobile device. Doctors can assess common health issues like flu or allergies, provide a treatment plan and send prescriptions to a pharmacy.² Your employees can even arrange video appointments with licensed therapists and psychiatrists.³

Future Moms

Moms-to-be have easy access to qualified nurses who can help them follow a health care provider's plan of care, identify any risks, make healthier decisions during pregnancy and prepare for delivery. Personal support and guidance include free online visits with a lactation consultant, counselor or registered dietician.

24/7 NurseLine

Registered nurses are on call 24/7 to provide help with everything from a baby's fever to allergy relief tips — and can even advise your employees where to go for care.

ConditionCare

If you have employees with chronic conditions like asthma or diabetes, they can get one-on-one help from an experienced health care professional. They'll learn easier ways to manage their condition and steps to help reach their health goals.

MyHealth Advantage

If data indicates possible health risk or care gaps for an employee, we will send a confidential MyHealth Note with specific actions to take for better results. Plus, we can suggest ways your employees can save money.

Behavioral health

The emotional well-being of your employees is as important as their physical health and can also affect their productivity. For those dealing with depression, anxiety, stress or substance abuse, our behavioral health program offers needed help including an extensive network of psychiatrists, social workers and residential treatment centers.

Case management

When employees are hospitalized for a major illness or injury or are struggling with multiple health issues, our registered nurse case managers can help get them the best care possible. These trained health experts are highly skilled at assessing and supporting the whole person — not just the health issue — through convenient video chat and automated follow-up phone care.

AIM clinical review

Smart employee health care decisions start with good information. Working with AIM Specialty Health (AIM), a leading specialty benefits management company, Anthem offers valuable clinical review and site-of-care review programs. These programs guide patients to safe, medically appropriate care that can lower expenses for you and your employees for high-cost services like:

- Radiology benefit management
- Cardiology
- Imaging Clinical Site of Care
- Sleep
- Radiation therapy
- Cancer Care Quality Program
- Genetic testing
- Musculoskeletal
- Surgical GI
- Rehabilitative services

Once a procedure has been reviewed, AIM also offers voluntary shopper programs which can guide your employees to the most affordable choices for some services.

OFFER YOUR EMPLOYEES TOTAL COVERAGE WITH VISION, LIFE, DISABILITY BENEFITS AND MORE.

Employee satisfaction often comes down to your benefits package. The SOCA Benefit Plan lets you take advantage of Anthem's industry-leading specialty plans (vision, life, disability and more), along with medical — plus, an important way to integrate them.

ANTHEM WHOLE HEALTH CONNECTION®

This innovative clinical integration solution connects all of our plans for better care, more efficiency and bigger savings — at no additional cost. Through shared data, Anthem Whole Health Connection enables earlier identification of health risks, improved coordination of care and a more personalized member experience. Consider the advantages.

VISION

The eyes provide a direct view of blood vessels, allowing vision providers to detect and diagnose serious health conditions like high blood pressure, high cholesterol and heart disease. Anthem vision providers have online access to HIPAA-compliant member health profiles to help them make recommendations and avoid more serious problems.

When employees have vision benefits, medical claims have been shown to be 20% lower for diabetes, 15% lower for heart disease and 7% lower for high blood pressure.⁴

LIFE AND DISABILITY

You can count on Anthem's life and disability benefits to provide much more than just a check. We're there for your members and their beneficiaries through challenging times with industry-leading support including:

- **Fast and accurate claims turnaround**
- **24/7 telephone counseling and referral service**
- **Beneficiary Companion, concierge-level support for life members**

PHARMACY

Anthem also offers an impressive prescription drug program. By coordinating medical and pharmacy data, we can help improve employee health and potentially reduce total health care costs.

IMPORTANT SOCA BENEFIT PLAN SAVINGS

Along with quality offerings, employees can enjoy:

- **A full range of specialty plans** including vision, life, disability and more.
- **Our SpecialOffers program** with member discounts on gym memberships, weight loss programs, LASIK surgery and more.
- **Deep discounts** on prescription drugs.

JUST LOOK AT THE NUMBERS.

IN OHIO:

- Nearly **7,000** primary care doctors.
- More than **13,500** specialists.
- More than **175** hospitals.

MONTHLY MEDICAL SPEND
WITH THE SOCA BENEFIT PLAN.⁵**

“SOCA saved our office about \$13,000. We went searching for new health insurance when the county policy was going to increase by almost 48%. Since we are a sub-division of the state we are able to either be on the county insurance program or house our own! That's when I found this program. It has been a lifesaver for us and we are now looking into additional coverage from Anthem!”

— Katie Kovaly
