

ABOUT EMPOWER

Empower is a professional development program for mid- to upper-level management, designed *exclusively* for women business leaders. Through a strategic partnership with Aileron, this 10-month intensive co-hort will blend professional business coaching with innovative curriculum and problem solving.

Empower will lead participants through authentic self-reflection in order to identify leadership strengths, develop a personal brand, and build skills to break down barriers to advancement.

The Dayton Area Chamber of Commerce will use this program to change the culture in our business community and to pave the way to the top for all motivated leaders.
