

Control your energy costs

with the *official* energy partner of the DACC.

IGS Energy has been an official energy partner of the DACC for 6 years, expertly supplying businesses just like yours.

A trusted partner for electricity and natural gas supply

With a deep understanding of your industry, IGS Energy offers traditional and green solutions to help you source and manage your energy. Whether it's electricity or natural gas, we can customize a pricing strategy for your businesses in your community.

Here for you

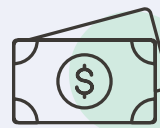

Every business is unique and deserves to work with an energy partner that's committed to finding customized energy solutions. We've been family-owned since 1989 and pride ourselves on delivering better peace of mind when it comes to your energy supply.

For a no-obligation cost analysis, simply share a copy of your most recent utility bill. We'll follow up with customized options that make sense for your organization. We're looking forward to connecting with you.

The time is right for a switch if you're:

Looking for more transparency in your energy contract

Seeking competitive pricing from a direct supplier

Interested in working with a partner that understands your organization's unique energy usage

Simply call or email with a recent bill to DACC Account Manager Reggie Franklin.
